FISHSLAYER TACKLE CLATTER JIGGINSPINNERS™

JIGGING, CASTING, TROLLING, ICE FISHING

FISHSLAYER TACKLE'S CLATTER JIGGINSPINNERS™ are extremely effective whether Jigging, Casting, Trolling or Ice Fishing. Our custom bent and cupped blades spin tightly around our CNC machined center body sliding weight, followed by our custom, precision bent Mustad hook, all of which gives our CLATTER JIGGINSPINNERS™ their incredible action and makes them irresistible to predatory fish.

CLATTER JIGGINSPINNERS™ combine both sound, along with glowing vibrant colors to entice both predatory, hungry or just angry fish to viciously attack the CLATTER JIGGINSPINNERS. As our uniquely engineered and CNC machined center body sliding weight moves along the Jig's stainless steel core, it emits both vibratory and audible clicking sounds thru the water, which precisely penetrates the vibration sensing canal down the side of the fish called the "lateral line" triggering fish to attack.

FISHSLAYER TACKLE'S CLATTER JIGGINSPINNERS™ center sliding weights are beautifully POWDER COATED with many vibrant glow colors and are extremely durable. CLATTER JIGGINSPINNERS™ are available in a variety of weights along with many color combinations to choose from.

CLATTER JIGGINSPINNERS™ FEATURES

- Proudly manufactured, assembled & packaged at our manufacturing plant in the NJ, USA.
- Marine Grade, High Strength, Stainless Steel jig core.
- Our CNC machined Center Sliding Weights are Powder Coated, can take a beating, are available in many vibrant, fish-catching colors, including most that glow.
- Our Custom Bent and Cupped Spinner Blades are chrome plated on the belly with a variety of vibrant, fish attracting glow colors on the top.
- Our CLATTER JIGGINSPINNERS™ can be fished inside the Lake Ontario Estuary and all the way up the Salmon River to the Fly Zone, as our custom bent hooks are within the Salmon River lure and hook size regulations.
- Single, Custom Bent, Razor sharp, Mustad Hook.
- The distance between the HOOK'S POINT & SHANK, is LESS than 1/2".
- The distance between the HOOK'S POINT & JIG is LESS than 1-1/2".

Our Products are PROUDLY MANUFACTURED, ASSEMBLED and PACKAGED in the U.S.A.

- * **LIGHTS INSTALL IN MINUTES** *

MORE FISH EQUALS MORE ACTION

INCREASE DIPSY STRIKES 4X

DIPSY RUDDER LIGHTS (patented)

The **DIPSY RUDDER LIGHT** mounts directly to your original DIPSY@DIVER, so there are no holes to drill, and it takes only minutes to install using a standard Phillips screwdriver.

To install, simply remove the "Release-Tension Screw", then insert the **DIPSY RUDDER LIGHT** bracket thru the slot, align the bracket hole, re-install the screw, and tighten to the release pressure you desire.

WATER ACTIVATED LED LIGHT

The water activated LED light mounts on our bracket with st. steel screws & feature an integrated, micro-control circuit which has been programmed so the super bright LED's flash **GREEN, WHITE and RED.**

The LED's turn on when the light contacts water, and the LED's turn off when dry.

The light assembly is completely waterproof underneath a precision injection molded clear protective cover and can be used in both **Freshwater AND Saltwater.** The battery in the lights lasts up to **200 hrs** or more and replacing the lights is fast and easy.

FISHSLAYER TACKLE

DIAMONDBACK SPOONS

FISHSLAYER TACKLE'S DIAMONDBACK SPOONS are precision engineered, manufactured and balanced to create tournament winning, **Life-Like Action** thru all speed ranges while **TROLLING** or **CASTING**. **DIAMONDBACK SPOONS** are also very productive while **JIGGING** or **ICE FISHING**.

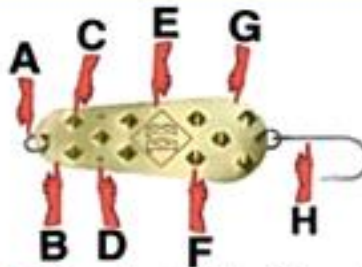

FISHSLAYER TACKLE'S DIAMONDBACK SPOONS create fish attracting turbulence and vibrations with their raised and embossed **Diamonds** along it's surface.

DIAMONDBACK SPOONS also feature **2 HYDRO STABILITY PORTS** which create a **Popping** like action as they relieve pressure while moving thru the water. These ports also increase the spoons **Stability** and create an incredible stream of **"HERE I AM"** bubbles flowing out the ports.

They have incredible, **Life-Like Action** and look as thou they were live fish, swimming thru the water.

DIAMONDBACK SPOONS are available in 6 sizes: **2.5", 3.0", 4", 4.5" & 5" Long**.

DIAMONDBACK SPOON OVERVIEW

- A) Heavy Duty St. Steel Rings** On each end of the Diamondback have rounded edges and a smooth surface so nothing interferes with the Diamondback's incredible action.
- B) An Inclined, Cupped Radius on the Leading Edge** Gets the front of the Diamondback cutting thru the water with just the right angle of attack and minimal drag.
- C) 5 Diamonds Embossed into the Front of the Diamondback** Create turbulence and vibrations which both attracts fish thru their lateral line and creates irresistible action.
- D) 2 Precision Hydro Stability Ports / Bubble Vents thru the Diamondback's Core** Relieves pressure as it moves thru the water, which not only increases the Diamondback's action and horizontal stability, but also creates an incredible stream of **"HERE I AM"** bubbles flowing out the ports.
- E) Solid Brass is the Core of the Diamondback** These strong, lightweight lures are precision CNC machined, formed, assembled, airbrushed, packed & shipped under our strict ISO 9001 quality standards at our advanced tech manufacturing facility in New Jersey.
- F) 5 Diamonds Protruding from the Rear of the Diamondback** Create turbulence and vibrations which both attracts fish thru their lateral line and creates irresistible action.
- G) An Angled, Deep Cupped Radius on the Trailing Edge** Entices the rear end of the Diamondback to create irresistible and incredibly nasty, life-like action.
- H) Finally, a Needle Sharp VMC Hook** Is all business attached to the rear stainless steel ring flowing freely behind the Diamondback, ready for a hungry fish to attack.

Actual product color may vary slightly from the pictures.

FISHSLAYER TACKLE COBRA TROLLING SPOONS

TROLLING - CASTING - JIGGING

FISHSLAYER TACKLE'S COBRA TROLLING SPOONS are precision engineered, manufactured and balanced to create tournament winning action thru all speed ranges & very productive when **Trolling, Casting, Jigging** or **Ice Fishing**.

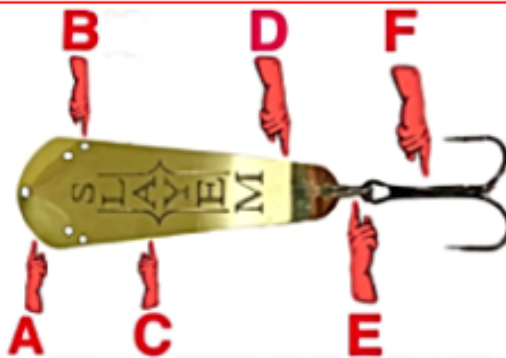

FISHSLAYER TACKLE'S COBRA TROLLING SPOONS are the **ONLY TROLLING SPOONS** that can be "**HAND TUNED**" to get the exact action needed for the species your fishing for! They have incredible, **Life-Like ACTION** and look as thou they were live fish, swimming thru the water.

COBRA TROLLING SPOONS are available in 5 sizes: 2.5", 3.0", 3.75", 4.25" and 4.75" long.

COBRA TROLLING SPOONS are also available with an optional **RATTLE** or a water activated **LED LIGHT** installed.

DEADLY FOR: KING SALMON, COHO, ATLANTICS, BROWN TROUT, WALLEYE, LAKE TROUT, STEELHEAD, PIKE, MUSKIE, STRIPERS, PICKEREL, PERCH, BASS, BLUES, KING MACKEREL, ETC.

COBRA TROLLING SPOON OVERVIEW

- A) An Inclined, Protruding Cupped Radius on the Leading Edge** Provides balance, stability and relentless action while giving this spoon it's unique COBRA look.
- B) 4 Precision Hydro Stability Ports / Bubble Vents thru the Cobra Trolling Spoon's Core** Relieves pressure as it moves thru the water, which not only increases the Cobra's action and horizontal stability, but also creates an incredible stream of "**HERE I AM**" bubbles flowing out the ports.
- C) Solid Brass is the Core of the Cobra Trolling Spoon** These strong, lightweight lures are precision CNC machined, formed, finished, packed & shipped, under our strict ISO 9001 quality standards at our advanced technology manufacturing facility in New Jersey.
- D) The Large Smooth Radius Running Down it's Back** Stabilizes the Cobra Trolling Spoon both vertically and horizontally creating an irresistible and incredibly life-like side to side swimming action. The **COBRA SPOON's** incredible action can also be manually adjusted.
- E) A Stainless Steel Split Ring** Holding the hook is strong and corrosion free.
- F) Finally, a Needle Sharp VMC Treble Hook** Is all business attached to the rear stainless steel split ring, just waiting for a hungry fish to attack.

FISHSLAYER TACKLE

COBRA FLUTTER SPOONS

JIGGING - ICE FISHING - CASTING - TROLLING

FISHSLAYER TACKLE'S COBRA FLUTTER SPOONS are precision engineered, manufactured and balanced to create tournament winning, Life-Like Action while **JIGGING** or **ICE FISHING**. **COBRA FLUTTER SPOONS** are also very productive while **CASTING** and thru all speed ranges while **TROLLING**.

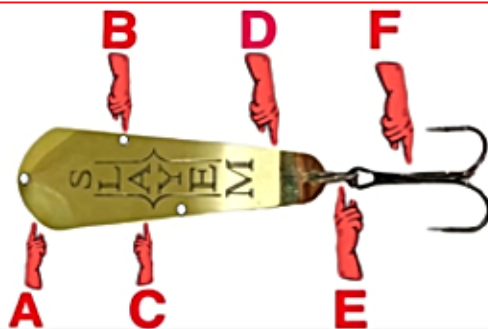

FISHSLAYER TACKLE'S COBRA FLUTTER SPOONS are 2 times thicker than our **COBRA TROLLING SPOONS** and are the **Only Flutter Spoons** that can be "**HAND TUNED**" so you can get the exact action needed for the species your fishing for!

There are 2 **Hydro Stability Ports** that go thru the core of the **COBRA FLUTTER SPOON** which relieves pressure as it gently flutters and rocks forward and back, like a cradle into the depths. These ports not only increase the **COBRA'S** vertical and horizontal stability, but also creates a stream of "**HERE I AM**" bubbles flowing out the ports creating incredible, Life-Like **ACTION** and look as thou they were live fish, swimming thru the water.

FISHSLAYER TACKLE'S COBRA FLUTTER SPOONS are available in 6 sizes: 1/16oz, 1/8oz, 1/4oz, 5/16oz, 3/8oz & 7/16oz and are also available with an optional rattle or water activated **LED** light installed.

DEADLY FOR: WALLEYE, KING SALMON, COHO, ATLANTICS, BROWN TROUT, LAKE TROUT, STEELHEAD, BASS, MUSKIE, PICKEREL, PIKE, PERCH, BLUES, STRIPED BASS, PORGY, LING, SEA BASS, FLUKE, ETC...

COBRA FLUTTER SPOON OVERVIEW

- A) An Inclined, Protruding Cupped Radius on the Leading Edge** Provides balance, stability, and relentless action while giving this spoon it's unique COBRA look.
- B) 2 Precision Hydro Stability Ports / Bubble Vents thru the COBRA Flutter Spoon's Core** Relieves pressure as it gently flutters and rocks forward and back, like a cradle into the depths. These ports not only increase the COBRA'S vertical and horizontal stability, but also creates an incredible stream of "**HERE I AM**" bubbles flowing out the ports.
- C) Solid Brass is the Core of the COBRA Flutter Spoon** These strong, lightweight Spoons are precision CNC machined, formed, finished, packed & shipped, under our strict ISO 9001 quality standards at our advanced technology manufacturing facility in New Jersey.
- D) The Large Radius Down the Back** Stabilizes the COBRA Flutter Spoon to create irresistible and incredible, life-like Rocking/Flutter action, which is manually adjustable.
- E) A Stainless Steel Split Ring** Holding the hook is strong and corrosion free.
- F) Finally, a Needle Sharp VMC Treble Hook** Is all business attached to the rear stainless steel split ring, just waiting for a hungry fish to attack.

Our Products are **PROUDLY MANUFACTURED, ASSEMBLED** and **PACKAGED** in the **U.S.A.**

Actual product color may vary slightly from the pictures.

FISHSLAYER ADJUSTABLE UMBRELLA RIGS

FISHSLAYER TACKLE'S "patented" **ADJUSTABLE UMBRELLA RIGS** are, **BY FAR**, a fishes worst nightmare and **ABSOLUTELY** one of the most deadly weapons of all your trolling tackle.

With teasers at the end of each arm, our **ADJUSTABLE FISHSLAYER UMBRELLA RIGS** resemble a realistic, irresistible, school of baitfish being trolled just a few feet in front of your favorite lure of choice.

We manufacture **2-ARM, 4-ARM & 6-ARM FISHSLAYER UMBRELLA RIGS** and also a large variety of interchangeable teasers for our rigs which include:

ALLEWIVES, BIG EYE'S, HOOCHIES and "Hand Tied", Reverse Wrapped" **FLIES**.

All of our teasers are available with a large variety of colors and patterns to choose from which aggressively attracts hungry predator fish directly to the **FISHSLAYER RIGS** for the attack.

HERE'S WHY YOU'RE IN CONTROL

The horizontal arms on our **FISHSLAYER UMBRELLA RIGS** can be easily moved either vertically or horizontally on the rig so you're in total control of the **SPACING** and **DISTANCE** between each arm & their teasers! Changing teasers on our **ADJUSTABLE FISHSLAYER UMBRELLA RIG** is fast and easy via a stainless steel snap swivel.

Our **ALLEWIVE TEASERS** and **BIG EYE TEASERS** have a CNC machined billet aluminum core which gives these teasers strength and gives you the ability to **ADJUST THE ACTION OF EVERY TEASER** on our **FISHSLAYER UMBRELLA RIG**. You can give each individual teaser a slow, medium or fast rolling action **OR** no action at all. **** YOUR IN CONTROL ****

Every teaser style we manufacture, is available in **GLOW** & also a large variety of colors and color patterns. **Don't be shy...** let us know if there's a specific color or color pattern you want on any of our teaser styles. Special orders are not a problem!

FEATURES

- * The Horizontal Arms can be moved Vertically or Horizontally to precisely Adjust the Teasers position, so you get the Look and Spacing of the teasers exactly the way you want.
- * The Alewife and Big Eye Teasers Aluminum Core, gives you the ability to Adjust their Action.
 - * Heavy Duty, St. Steel Roller Bearing, Coastlock Swivel Snap on the bottom.
 - * High Strength, St. Steel Roller Bearing Barrel Swivel on the top.
 - * Manufactured from High Strength, Marine Grade Stainless Steel.
 - * Proudly Manufactured & Assembled @ our plant in the U. S. A.
 - * Stainless Steel Snap Swivels attach each teaser.
 - * No Sharp Edges to get caught in your net.

FISHSLAYER BIG EYE RIG TEASERS

Our BIG EYE TEASERS were engineered, designed & manufactured to give the angler complete control of the action & mean are all business!

Features

- Every BIG EYE Teasers has a **CNC machined, solid aluminum core**. This solid aluminum core gives the angler the ability to adjust the action/roll of each BIG EYE Teaser exactly the way they want, depending on the species that are trying to attract. (ex. **Slow Roll, Fast Roll or No Roll**)
- The BIG EYE Teasers measure approx. 3-1/2" long by 1" high.
- Our BIG EYE Teasers are available in a large variety of fish attracting colors.
- Available in 2 packs or 6 packs.

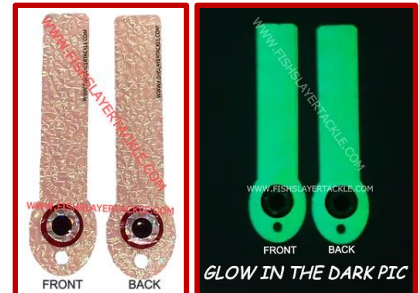

We guarantee that if you add a 2 Arm, 4 Arm or 6 Arm Fishslayer Adjustable Umbrella Rig with any of our teasers to your display on your next trip, you can expect a serious increase in action as they WILL attract more fish to you boat!

FISHSLAYER TACKLE

FLY TEASERS

FISHSLAYER TACKLE'S Fly Teasers have an irresistible, Life-Like appearance and action when tied on one of our custom, "patented" **BROADHEAD** or **OVAL** style **FLY HEADS**.

We offer a large selection of Skirt color combinations and Broadhead color combinations that will attract and tease fish into savage attacks.... **EVEN ON THOSE TOUGH DAYS!**

FISHSLAYER TACKLE'S Fly Teasers are made "**IN-HOUSE**" with the highest quality Mylar material. We hand tie, reverse wrap and seal each of our hand made skirts to one of our patented, injected molded **FLY HEADS**. The results are absolutely beautiful quality flies that look and track **Life-Like** behind our **FISHSLAYER RIGS**, resembling a school of baitfish followed by the main course.... (the lure or trolling fly of your choice).

We "**GUARANTEE**" that if you add a **FISHSLAYER TACKLE 2-ARM, 4-ARM or 6-ARM FISHSLAYER RIG** with any of our teasers to your display on your next trip, you can expect a serious increase in the action as they **WILL** attract more fish to your boat! Fish **WILL** not only swim right by the other lures in your display and slam the lure trailing our **FISHSLAYER RIGS**, but at the same time they will attract **MORE FISH** to your entire display which only means 1 thing... **MORE FISH = MORE ACTION!**

* FLY TEASERS are available in 2-packs & 6-packs *
